

# **Minutes of all the meetings held for the Project**

## **Group: 9**

### **Discussions among the group members and the students (users):**

- FCFS should not be the criteria for course allocation.
- Students can opt for registration not following the given curriculum (Special: Not following the curriculum/Overload: Extra number of courses than specified) which shall be confirmed by the Dean (A).
- Students can all the courses taken by him/her till date so that he/she knows how many credits are yet to be completed.
- The LoginID and password to be used is already present in the institute's database (used for other applications).
- The curriculum and timetable should be provided by the Curriculum Management Portal (present in the database in the required format).
- The algorithm to be used for course allocation can be random if number of students is greater than the seat limit. In any case, year wise preferences will be present.
- A student is allowed to view course details.
- Students have different preferences for OS/browsers etc. The software should be independent of such dependencies.

### **Meeting/Lectures with/of Prof. Gorthi (course instructor):**

- The application should be web based and accessible only from within the campus.
- An instructor can mention any prerequisites and conditions (branch/year) for his/her course.
- Only Dean (A) can add/modify a course or its details. Details include Course name, course code, credits, course instructor and course type, HSS/SCIENCE/PROGRAMME/OPEN Elective or CSE/ECE Compulsory.
- Dean (A) can view every course or student details.
- The software should be accessible using a LoginID and Password.

### **Meeting with Academic Staff/Dean (A) of LNMIIT:**

- A student should not be able to opt for courses falling under the same time slot.
- Number of seats in a course is decided by the Dean (A)
- A student can register for courses only after paying his/her fees (Physical Registration). This is confirmed by the Registrar.
- Registrar can keep a check of all the students who have completed Physical Registration.

- Repetition of any course needs confirmation from the Dean (A).
- Registration process will be active for 8 hours.
- Reduce time taken in registration process.
